

# SPLIT MIRROR FULL LENGTH - STAND

## PRODUCT MANUAL

To assemble the split mirror stand:

Lay down the mirror on a protected surface, for example a blanket. Decide in what angle you would like to position the mirror. On the next page you will find the four options. Attach the stand with the supplied screws. When the stand is fixed to the mirror, you can place the mirror upright.

# SPLIT MIRROR FULL LENGTH - HOOK

## PRODUCT MANUAL

To assembly the split mirror Hook:

Attach the hook with the short screw to the mirror. Place the mirror against the wall at the desired angle. Mark the place for the screw on the wall (Height of the screw is approximately 161cm). Drill a 6 mm hole in the wall. Apply the plug and screw in a solid wall, leave approximately 7mm for the hook. Lift the mirror over the screw.
